Santiago, Chile (Available for remote work or international relocation)

About Me

Front-End Engineer with a design background and 5+ years taking digital products from vision to code. My differentiator is the hybrid profile: I design products and systems teams adopt because I also know how they're built and measured.

Work Experience

↗ Full career path

UOCT – Front-End Developer

Jun 2026 – Present, Santiago, Chile
Designing and developing an **interactive dashboard** for touchscreens with real-time Chilean transportation data, customizable per user.

Idea-Tec – Content Creator & Web Developer

Feb 2026 – Present, Remote
SEO/GEO-driven content and landing pages for products and events, on demand.

LATAM Airlines – Front-End Lead

Apr 2024 – Jul 2025, Santiago, Chile
Led a Front-End platform team of **8 people** enabling **15+ data teams** to build internal interfaces. Delivered a component library (React + Ant Design) consumable by Dash and Next.js: teams stopped building UI from scratch.

- Standardized the styling layer and surfaced component usage through monitoring dashboards.
- Built a self-service developer experience and a user-centered engineering culture within the Data & AI tribe.

Cencosud S.A. – Front-End Developer

Sep 2023 – Apr 2024, Santiago, Chile
Drove usability and consistency improvements across the e-commerce sites of **5 countries** through **continuous experimentation**.

- Led internal adoption and training on VWO for A/B testing in Argentina, Brazil, Chile, Colombia, and Peru.
- Designed, coded, and analyzed component experiments focused on usability, accessibility, and performance.

Cencosud S.A. – CRO Business Analyst

Mar 2022 – Sep 2023, Santiago, Chile
Led **regional e-commerce** optimization with a conversion focus.

- Proposed initiatives for Argentina, Brazil, Colombia, and Peru, coordinating commercial, UX, development, and analytics teams.
- Designed Looker Studio dashboards for continuous digital funnel tracking.

WiTI – UX/UI Designer

Mar 2021 – Mar 2022, Santiago, Chile
Advanced Figma prototyping, Nielsen heuristic evaluations, and dev hand-off for internal and client projects.

Technovation Girls Chile – Key Account Manager (KAM)

Jan 2021 – Aug 2021, Santiago, Chile
Implemented the coding and innovation curriculum in **4 schools and 2 inter-school sites**. I was the manager who brought the most girls to the program's global competition that year.

Freelance – Graphic Designer & Web Developer

Jul 2016 – Present, Remote
Digital partner to **60+ clients** (artists, entrepreneurs, and NGOs): WordPress sites with brand identity, SEO, and performance/security best practices.

Education

- **Postgraduate Diploma in Software Engineering** – Universidad de Chile, 2025
- **Diploma in Web Development** – Pontificia Universidad Católica de Chile, 2023
- **Diploma in UX Design & Measurement** – PUC, 2022
- **Professional Degree in Design** – PUC, 2020. Capstone project: *Algórica*, a web platform that teaches math through interactive visualizations
- Additional training: Foundations of UX Design (Google/Coursera, 2021) and Inclusive Design for Digital Platforms (UDD, 2020)

Teaching

- **Adjunct Professor, UC School of Design** (2026 – present): **Computational Thinking** and **Generative AI as an Engine for Design**.
- **Adjunct Professor, UC School of Communications** (2023 – 2024): **Graphic Nonfiction Storytelling**, integrating data journalism and programming (Python, Pandas, Altair).
- Other: Academic coordination of the Data Visualization Diploma (UC) + training for **100+ teachers** in blended learning + front-end and Ruby on Rails bootcamps + AI classes for girls.

Community & Leadership

- **Women Techmakers Ambassador (Google)** (2024 – 2025): technical events and network building for diversity in tech.
- **JSConf Chile Volunteer** (2022 – 2023): logistics for international speakers for **500+ attendees**.
- **Front-End Community Lead, Cencosud** (2022 – 2023): meetups and mentoring across **50+ developers**.
- **Technovation Girls Mentor** (2019 – 2023): girls' teams building social-impact apps; one team earned **2nd place nationally** in "Los Creadores".
- **Volunteer Designer, Fundación Antonia** (2021 – 2024): visual identity and gender-violence prevention campaigns.
- **International speaker:** JSConf, 9punto5, and Nerdearla.

Key Skills

- **Front-End:** React, TypeScript, JavaScript, HTML5, CSS3, Tailwind, Astro, Next.js.
- **UX/UI Design & CRO:** Figma, Adobe CC, Hotjar, Miro, VWO, Google Analytics, Looker Studio.
- **Leadership & Product:** mentoring, Scrum/Kanban, workshop facilitation, stakeholder management.
- **Other:** REST APIs, WordPress, Python (Pandas/Altair), Django.
